Care and Support Services

We have continued to provide tailored-care to people in their homes. Our carers have been working harder over the last few months to promote independence for our valued service-users. During the challenging times of COVID-19, we have continued to provide the quality care we endeavour to always provide! We have also delivered 70 food packages, funded by the Steve Morgan Foundation, taking our total over the last 3 months to 200! We also made well-being calls to our clients this month - to ensure that we're providing the best care possible.

John has received his hamper:
"I just can't believe how generous you've all been. Thank you very much to you all!"

Counselling and Emotional Support Services

Our project, the Barbara Bettle Foundation has provided support for those who have been lost a loved one to suicide since 2017. Since January, they have provided 569 appointments; in July we provided 120 appointments.

Our therapist Pamela

Our new service provides telephone support to those who are bereaved through COVID-19. We aim to provide immediate support to those grieving, in recognition of the restrictions placed on bereavement in these difficult times.

Our therapist Deborah

CARER OF THE MONTH

Well Done to Danielle McCormick for her commitment and care!

NEW SERVICE: CARING CUTS

Caring Connections are now providing professional hairdressing and barbering! If you want to know more about this, call our office!
